Instructions for completing column B

This glossary will be used, among other things, for term consistency checks.

In column B, please enter the equivalent term in column B in its dictionary form (e.g. in singular, in lower case, etc.) except for lexicalized inflected or capitalized forms.

We also need to reflect potential inflections and variability in the glossary, such as number, gender, conjugation, articles, etc. For that, we need to use **wildcards**
