

DOs and DON'Ts in Comment Writing

Please DO...	Example
...describe how the target deviates from source (rather than the other way around)	😊 “wild” added to “horse” “horse” translated as “wild horse” 😞 ENG source only reads “horse”, not “wild horse”
...make sure that the location of your intervention is clear	😊 “True” and “False” left in English in the table heading
...use back-translations whenever useful, and ALWAYS in the case of mistranslation	😊 “donkey” translated as “monkey”
... advise, if your comment is FYI only	😊 FYI: in Zedish “with backbone” and “vertebrate” have the same root word, which makes the correct answer obvious. Unchanged by Ver
... ALWAYS advise whether or not you made an intervention	😊 OK now / Unchanged by Ver 😞 Text caption not fully visible. Ver was unable to change \\ 😞 Text caption not fully visible
... use impersonal and neutral approach	😊 “Verifier feels... Changed by Ver(ifier)” “I think...” “I changed”
Please DON'T...	Example
...describe what it reads in the source (but rather how the target deviates from source)	😞 In ENG source it reads “book” 😞 Not “booklet” 😊 “book” translated as “booklet”
... describe the issue through the action performed by you	😞 Ver changed “house” to “building” 😊 “building” translated as “house”
... write comments that are not understandable to reviewers that do not understand the target language	😞 “քըցխ” changed to “իընշւխյւզգ” (Which term is the comment referring to? Who made the change? Why?) 😊 “building” translated as “house”
... refer to other projects	😞 Ver prefers the answering categories as used in TIMSS 😊 Ver suggests categories “ZZ”, “YY”, “WW” for better equivalency to source
... ()	😞 😞 😞
... ()	😞 😞 😞
